## Library Evidence Hub:

## finding trusted information

The Library Evidence Hub (<u>http://portals/leh/ layouts/15/start.aspx#/</u>) is a resource bank of carefully selected material that has been collected together with the aim of being a one-stop shop for staff and students who work and study at LSCFT.

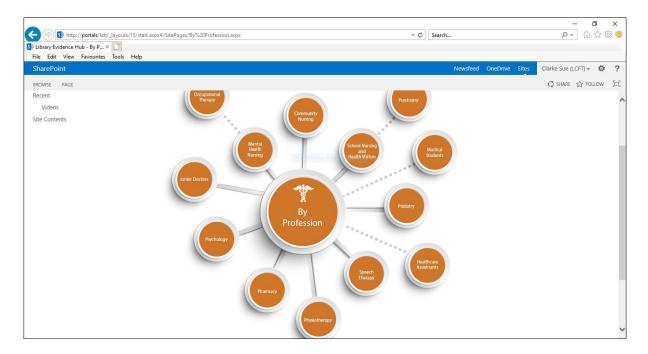

The Hub has been designed to be user friendly and can be viewed in variety of ways i.e.

- By profession
- By service
- Study tools
- Revalidation
- Training

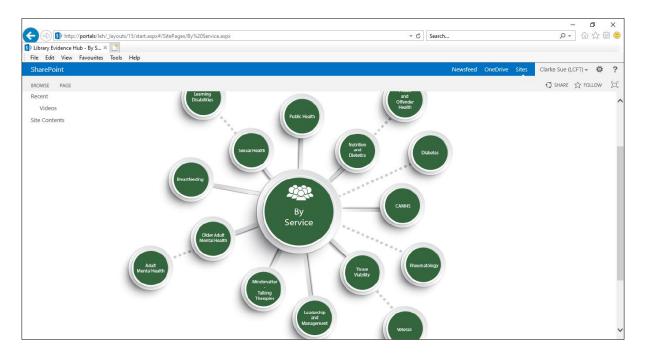

Within each section the information is further divided so users can quickly access the area they are interested in.

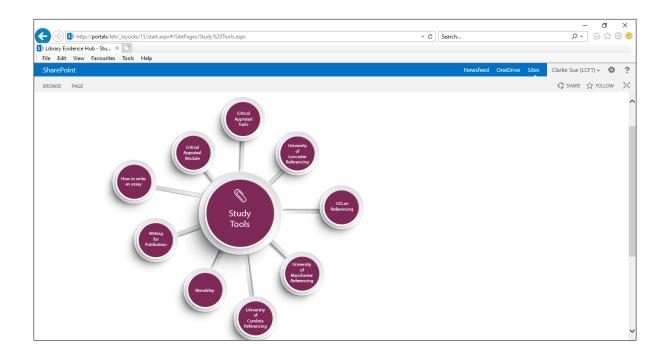

**By profession**: each profession contains links (where applicable) to books, key resources, e-books, NICE guidelines, journals, databases, useful websites and apps/Twitter.

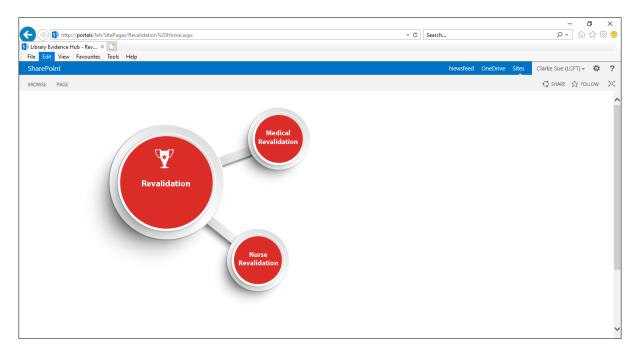

**By service**: each service area contains links (where applicable) to books, key resources, e-books, NICE guidelines, journals, databases, useful websites and apps/Twitter.

If there are other resources you would like to see added to your area of expertise please contact the Library Team at the Gosall Library (Lantern Centre) – email <u>academic.library@lancashirecare.nhs.uk</u>
