

RESOURCE OF THE MONTH

BMJ BEST PRACTICE

BMJ Best Practice is a clinical decision tool providing comprehensive information on clinical topics. The resource is fully evidence-based and is updated daily using the latest evidence, allowing you to stay up to date with your practice.

Find evidence quickly and confidently.

BMJ includes:

- Over 30 specialty areas
- Treatment options
- Diagnoses
- 250 medical calculators
- Nearly 400 patient leaflets
- Short videos explaining how to perform medical procedures
