

DISABILITIES

National Disability Strategy

The National Disability Strategy sets out the government's vision to improve the everyday lives of disabled people. The publication is split into 3 parts: practical steps to improve disabled peoples' everyday lives; policy making and service delivery; cross-government efforts to transform disabled peoples' lives.

MENTAL HEALTH

Coronavirus: the consequences for mental health

At the start of lockdown, Mind asked people 'How has coronavirus affected your mental health?'. One year on, they've asked again to understand the ongoing impact of the pandemic. This research, involving nearly 12,000 people, reports on personal impact, how people have coped, if and how they got support and how they think easing restrictions might affect their mental health.
