

OLDER PEOPLE

Urban Ageing and Spatial justice event

Manchester Urban Ageing Research Group are hosting a free event which will discuss the meaning of place to older people and the need to promote social justice in urban, ageing neighbourhoods.

This conversation series brings together international speakers to discuss topical issues relating to researching ageing in urban environments.

HEART HEALTH

National Heart Month

Currently, there are around 7.6 million people in the UK living with heart and circulatory diseases and 1 in 2 of us will experience a heart or circulatory condition during our lifetime.

To mark Heart Month, this February the British Heart Foundation (BHF) are asking the nation to take some simple steps to improve their heart health.

YOUNG PEOPLE

Paper highlights health inequalities for young people

With the support of The Health Foundation, the Association for Young People's Health has produced a paper on health inequalities for young people; offering a definition and a conceptual framework to help identify the key causes and levers that influence health outcomes.

In highlighting the levers that influence health outcomes they hope to highlight opportunities for guidance and resources to improve young people's health.
