Evidence-Based Summary

Can homes, schools and digital platforms drive young people's alcohol consumption?

World Health Organization (WHO); 2025.

<https://iris.who.int/handle/10665/381079>

[Governance and multisectoral collaboration can tackle the interrelated drivers of alcohol through policies that address the availability, accessibility and affordability of alcoholic beverages. This will reduce young people's exposure to alcohol through stringent and enforced policies and regulations.]
